

## Role Profile- Senior Pharmacovigilance Executive

### PART I

You are an experienced Pharmacovigilance Executive with a strong background in Pharmacovigilance who is passionate about the safety in drug development / post-marketing use and seeking a challenging and rewarding career.

We are an ambitious organisation, expanding our international, full service, boutique CRO; growing by bringing together the best possible people, healthcare professionals and drug developers from all areas of clinical development. Orion Clinical is the full-service clinical development division of Simbec-Orion Group.

Simbec-Orion Group, the new brand created by the merger of two established CROs, is looking for a Senior Pharmacovigilance (PV) Executive, Orion Clinical/Pharmacovigilance in the United Kingdom to join the rapidly expanding Pharmacovigilance Team in Slough. Reporting into the Pharmacovigilance (PV) Manager, this is an important role in the growth of Simbec-Orion Group.

You will hold a degree in life sciences, ideally a graduate, postgraduate, 4-year college degree, or equivalent, ideally in a scientific or healthcare discipline and you will have a proven track record in Pharmacovigilance. You will also have 4 years or more experience in the CRO or pharmaceutical industry including 3 years or more pharmacovigilance experience. You will have excellent communication and time management skills to manage multiple projects at any one time.

You are a strong team member and understand the need for effective communication at all levels. You will have a demonstrable record for effective relationship building with sponsors and colleagues.

You are confident in presenting to colleagues and sponsors with high standards for the quality of material presented.

<p>6. Assists with generation and review of departmental SOPs and Working Procedures.</p>
<p>7. Other responsibilities as assigned by the Management team.</p>

## Role Profile- Senior Pharmacovigilance Executive

### PART 4 – BACKGROUND TO SIMBEC-ORION GROUP

Simbec-Orion Group Limited (“Simbec-Orion” or the “Group”) was created in June 2014 by the merger of Simbec Research Limited (“Simbec”) and Orion Clinical Services Limited (“Orion”).

As a result of the merger, Simbec-Orion is today a full service CRO covering first in human Phase I clinical studies through to pivotal Phase III studies and Phase IV post marketing studies. Simbec-Orion supports its clients with our own in-house full service central laboratories (branded as Seirian Laboratories) pharmacovigilance, data management and statistics, IMP management/pharmacy, medical management. We have expertise in all drug types, dosage forms and delivery mechanisms and in later stage development and have six core therapeutic disciplines:

- oncology,
- rare and orphan diseases,
- respiratory disorders,
- dermatology,
- infectious disease & vaccines, and
- translational medicine.

We operate internationally serving clients anywhere in the world with physical operations in the United Kingdom, France, Germany, Italy, Spain, Czech Republic, Poland, Australia, South Africa and the United States of America. We have a combined staff approaching 250 people with the greatest concentrations in the UK and France.

It is our objective to become widely recognised as being a significant international full service CRO known for its excellence both across its range of services and in its therapeutic disciplines. We compete effectively against many of our larger competitors by offering a broader range of services and with greater depth of knowledge in our chosen therapeutic areas.

Given the background of a number of our senior leadership team, we think with the same focus as our clients - as drug developers and not simply as outsource service providers. Our goal is to meet their actual needs and not simply execute a study.

*Our growth targets aim to see the Group grow from its current size of approximately revenues of £25m (\$37m) per annum to £100m (\$150m). This will be achieved in part by organic growth but also through further M&A activity. – remove if lower level role*
